

## Top Choice Organics - Cultivator

*Garberville, California*

A legal cannabis company located near Garberville, CA, is seeking an experienced **Cultivator** to join its team of cannabis growing professionals in the mountains of Northern California!

The **Cultivator** position will assist in the cultivation of top choice medicinal marijuana on our 300+ acre farm. The **Cultivator** will bring new ideas, possess a strong work ethic, and propel the farm and its products forward in 2019.

### Duties:

- Help to maintain our large-scale commercial cannabis farm.
- Perform all required growing duties, including the following: cloning, transplanting, feeding plants, defoliation, cropping, topping, flushing, foliar and preventative sprays, trimming, packaging, waste disposal, plant breeding, and inventory management.
- Adhere to cultivation SOPs, and nutrient regimens.
- Work closely with a cultivation crew of 10+ cultivators and ensure that all actions performed on the farm follow stated procedures and regulations.
- Manage basic pruning procedures for different stages of plant development.
- Adhere to industry standards and waste disposal procedures set forth by regulatory agencies.
- Maintain accurate daily activity records and operation logs as directed using designated software.
- Assist with propagation, planting, irrigation, mildew control, pest control, cultural management, plant health and maturity observations, and harvesting.
- Inspect crops and prepare reports and pre-harvest estimates for all crops.
- Insect detection, identification techniques, and general crop scouting.
- Contribute to a fun, team-oriented, and challenging work environment in an innovative and progressive atmosphere.
- Communicate effectively with owners, supervisors, contractors, and employees.
- Facility maintenance and trouble-shooting as necessary.
- Oversee cleanliness and organization of all equipment present at the farm.
- Coordinate and execute field operations efficiently and on time.
- Contribute and improve upon already-existing operations and processes to improve workflow, efficiency, and provide constructive feedback and recommendations.

### Qualifications:

- 2-3 years' experience working on a cannabis farm.
- Intermediate knowledge of large-scale commercial plant cultivation, including nutrient requirements, mediums, light requirements, etc.
- Must successfully pass an extensive background check.
- General knowledge of soil growing methods including micronutrients, beneficial bacteria, and nutrient implementation.
- General knowledge of plant diseases, insects and fungi, as well as plant treatment options.
- Willingness to pursue continued education in the cannabis industry.
- Over 21 years of age.
